Subject: RE: MBTA CRMF action items update (MA0003590) [WARNING: DKIM validation failed]

Hi Clary,

I'm sorry about the delay in my response. I hope you both had a good weekend in the meantime.

Certified mail would be helpful for this correspondence. You can address a letter to my supervisor, Damien Houlihan, and copy Cathy Vakalopoulos and Joe Nerden of MassDEP. The mailing address for my supervisor is the same as mine:

Damien Houlihan
U.S. Environmental Protection Agency - Region 1
5 Post Office Square - OEP06-01
Boston, MA 02109-3912

Cathy and Joe work in separate MassDEP offices:

Joseph E. Nerden
MassDEP Northeast Regional Office
205B Lowell Street
Wilmington, MA 01887

Cathy Vakalopoulos
MassDEP Bureau of Water Resources
1 Winter Street
Boston, MA 02108

Please let me know if you have any questions or comments.

Thanks,

Undine Kipka

Hi Undine – I wanted to follow up with you and let you know we are almost ready to send off a package with all pertinent information requested. I will have Janis review the proposal prior to issuance. I anticipate next week no later than Friday EOB. If I can have it sooner, I will send it then.

Now- who should the letter to EPA be addressed to? And who from EPA/Dep you recommend I copy?

Regards, Clary

Subject: MBTA CRMF action items update (MA0003590)

Hi Clary,

I hope you're doing well. Thanks again for all the information submitted by you and the MBTA/Keolis team so far.

Given that there is a lot of information currently in play, I wanted to reiterate that for this permit (MA0003590) the priority for EPA is receiving the formal proposal of new sampling locations identified by #3 in the request list below.

Requests from the second site visit in grey have been completed to date.

Requests in black are pending.

1. Prison Point area - Easements, Property Boundary lines detail to be provided to Undine - M. Clarke to provide follow up information
2. North Point Contact - J. Kearney/M. Clarke to provide to Undine
3. Formal Proposal of new sampling locations w parameters for approval of EPA – B.Bettters/C.Coutu (Bill to forward revised excel sheet with sampling locations)
4. Review of other sampling locations applicability separate from Permit requirements - J Kearney.
5. Sufficient Sensitive Methods Rule - Marian to verify with Laboratory
6. MWRA Drag out – Clary/Bill to verify with OM and practices with Batch processes vs drag out
Note from Undine – the 2014 MWRA sewer use permit application includes an estimate of 600 GPD for train wash “dragout” that is not transferred to sewer
7. Sensor Panels status - Clary
8. Cross Sections of 13.0 and 13.4 - M. Clarke to EPA/DEP
9. Unifirst correspondence

I unfortunately have to add more requests to the list, again all at a lower priority than item #3 above:

10. Permit ID of the Northpoint stormwater
11. Reason CRMF is ineligible for MSGP, and supporting documentation if available
12. As a supplement to #7, design drawings, capacity, and documentation of API (or other) certification of the 3 CRMF oil/water separators
13. Tank and pump capacity of WW1, WW2

Thanks in advance and please don't hesitate to give me a call with questions or comments.
